Exhibitor's Feedback

TEXPROCIL (The Cotton Textiles Export Promotion Council)

At the outset, we thank you and the team at Worldex India for putting in place the Intex South Asia Show in Dhaka, Bangladesh. The event was organized successfully and all participants from TEXPROCIL were satisfied with the number and quality of visitors who attended the event. The layout of the exhibitor booths, the systematic upkeep and maintenance during the show were very good.

Salona Cot Spin Limited, India

I feel it's a good platform that the organizers have given us where the spinners from India have met a lot of garment export-

ers from Bangladesh and the footfall has been good. The platform given is an opportunity that can be capitalized in the coming days as the market is not very good for business right now but networking has been good and we hope to have more such exhibitions in the future.

Meido Textile Technology, China

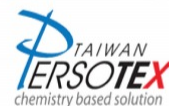

We are happy that we connected with decision-makers from Bangladesh and India at Intex South Asia, with a good footfall of visitors at our booth. Overall ambiance and service were good. We are expecting some business from the inquiries generated. Thank you!

BEN TECH Chemical Co., Ltd., Thailand

We are a Thailand-based chemical company and this is

attending Intex South Asia- Bangladesh Exhibition. We are getting good responses from our existing buyers and new buyer last two days. We are supplying all sustainable chemicals in the textile industry with maintaining sustainability.

Taiwan Persotex Corp., Taiwan

Welcome to the Taiwan Persotex Corp.

stall at the Intex Bangladesh exhibition. We are happy to participate in this exhibition as part of our client meeting and networking strategy. We are here to present our latest innovations and are pleased with the response.

POSITEX, India

This is our first time in Bangladesh at Intex Bangladesh Exhibition. This exhibition is a nice platform for us to meet our clients and queries. We are glad that we have already met some of our prospective clients on the 1st and 2nd day.

Stretchline (Pvt.) Ltd., Sri Lanka

We are a Sri Lankan-based company, we are supplying all kinds of yarn. We are very happy to join Intex Bangladesh. Bangladesh is a very important market for us. We are going to set up our manufacturing plant at CEPZ which will be very supportive for Bangladesh RMG makers to reduce lead time & cost savings. We are pleased to be here to meet and discuss with potential clients for further business opportunities.
