## INTEX BANGLADESH ADVANTAGE

### Threading Growth: Why Intex Matters For Bangladesh

As the second-largest exporter of garments in the world, Bangladesh's ready-made garment (RMG) industry continues to serve as the cornerstone of the national economy — contributing over 80% of total exports and employing more than 4 million workers. In the face of evolving global demands, rising

sustainability benchmarks, and shifting trade policies, Intex Bangladesh have become essential catalysts for progress by bringing together leading exhibitors from India, China, South Korea, Thailand, Japan as Intex not only enables global suppliers to connect with Bangladesh's apparel ecosystem but also empowers Bangladeshi companies to showcase their own manufacturing strength, product capabilities, and innovation in knitwear, denim, and value-added textiles. Intex is actively bridging the sourcing gap and empowering Bangladesh's apparel industry to scale higher in the global value

chain. By fostering partnerships, encouraging product diversification, and facilitating access to next-gen textile solutions, Intex is not just showcasing products — it is synergizing the next phase of industry growth.

With each edition, Intex Bangladesh strengthens the industry's supply chain by bringing the world to Dhaka — connecting local manufacturers with trusted global suppliers. It's not just a trade show, but a strategic enabler that supports Bangladesh's shift towards value-added, sustainable, and innovation-driven apparel exports.
