We are into performance wear manufacturing of PSF polyester fiber and chips, polyester spun yarn, and polyester filament yarn. It has been the 2nd time we have been exhibiting in Intex. The experience is very good and getting more and more better. This time we have seen many good buyers and have built connections with business owners.

Attending Intex Bangladesh 2025 was both a discovery and a declaration. We engaged with manufacturers, sourcing professionals, and other global visitors at the Intex fair and attracted a wide range of inquiries and we are satisfied with the quality of conversations they had with local stakeholders. We will return to the Intex show again.

**Jan Russell, Country Manager,

We're here at Intex to explore performance fabrics, synthetics, and discover new fabric suppliers. At Intex, we connected with several promising suppliers primarily from India with whom we are looking to establish future collaborations. The show continues to be a valuable platform for us. Thank you, Intex, for inviting us and for consistently creating such an impactful event.

We visited the show looking for fibers & yarns which we majorly source from India, China, Thailand and Indonesia. We met many suppliers in the exhibition. We are happy with the product mix of exhibitors here at Intex. Overall, the facilities and ambience are very good. This is a good exhibition in our country.
